Emerson University  
Multan

### Bachelor

Currently pursuing a BS in Software Engineering, with a strong academic record of **3.92 CGPA** over three completed semesters. Now in the 4th semester, demonstrating excellence in problem-solving, programming, and software development. Passionate about technology and continuously enhancing skills in coding, algorithms, and software design.

## Experience

---

I am a fresher student pursuing a BS in Software Engineering, currently in my 4th semester with a 3.92 CGPA. Alongside my studies, I am actively working in web development, gaining hands-on experience in front-end technologies. My process includes understanding client requirements, designing wireframes, developing using modern frameworks, testing for performance, and delivering optimized solutions. I am passionate about coding, problem-solving, and continuously improving my skills to build efficient and scalable web applications. Eager to apply my knowledge in real-world projects and challenges.
